In the context of borrowing, principal refers to the initial size of a loan; it can also mean the amount still owed on a loan. This should be part of your debt payment plan. The amount you originally borrowed The balance on the loan account at any one time after the last payment has been made The original investment in a personal or business asset like a building, equipment, Principal and Interest a vehicle.

Loans are structured so the amount of principal returned to the borrower starts with the principal. Similar to the former, it can also refer to the face value of a bond.
